# 2024 BUDGET PREMIÈRE ÉBAUCHE

## À PROPOS DU BUDGET MUNICIPAL

La *loi sur les municipalités de l'Ontario* exige que les municipalités de l'Ontario préparent et approuvent un budget chaque année.

Toutes les municipalités sont tenues d'avoir un budget équilibré, c'est-à-dire qu'elles ne peuvent pas enregistrer de déficit. Pour équilibrer son budget, la municipalité peut soit augmenter ses revenus (impôts fonciers ou redevances) ou gérer ses dépenses en réduisant ou en modifiant le coût de ses services.

Le budget est une estimation prospective de l'année à venir. Il se compose de deux éléments :

1. Le budget de d'opérations- qui comprend les dépenses quotidiennes.
2. Le budget capital - qui planifie l'achat, le financement des actifs et l'amélioration des infrastructures existantes.

Le processus budgétaire permet aux municipalités de prioriser les projets, les programmes et les services en fonction des revenus et des dépenses prévues. Le budget est un plan de travail qui établit les dépenses et les priorités en capital pour l'année à venir.

## L'ÉLABORATION DU BUDGET 2024

La préparation du budget 2024 a commencé au milieu de l'été, lorsque les départements ont été invités à commencer à réfléchir à leur budget en gardant à l'esprit les implications financières de la situation économique actuelle et son impact non seulement sur la municipalité, mais aussi sur les résidents. La priorité a été donnée au maintien des niveaux de service actuels tout en contrôlant les dépenses. D'un point de vue financier, il est important de continuer à

# 2024 BUDGET FIRST DRAFT

## ABOUT THE MUNICIPAL BUDGET

The *Ontario Municipal Act* requires that Ontario municipalities prepare and approve a budget each year.

All municipalities are required to have a balanced budget, it can not incur a deficit. To balance its budget, the municipality can either increase its revenues (property tax or fees) or manage expenses by reducing or modifying costs of services.

The budget is a forward-looking estimate of the year to come. It consists of two components:

3. The operating budget – which includes day-to-day expenses.
4. The capital budget – which plans for the purchase, financing of assets and improvements to existing infrastructure.

The budgeting process allows municipalities to prioritize projects, programs and services based on anticipated revenue and expenses. The budget is a work plan establishing spending as well capital priorities for the year to come.

## DEVELOPING THE 2024 BUDGET

Preparation of the 2024 budget began in mid-summer whereby departments were asked to begin thinking about their budget keeping in mind the financial implications of the current economic situation and how it impacts not only the municipality but residents as well. The priority was set on maintaining current service levels while controlling spending. From a finance perspective, continuing to fund reserves and reserve funds remains important to continue to assist in covering capital costs.

financer les réserves et les fonds de réserve afin de continuer à couvrir les coûts de dépenses en capital.

Les objectifs, les priorités et les questions abordées lors de l'élaboration du budget incluent:

- Améliorer la transmission des informations en les rendant plus claires et plus faciles à comprendre
- Gérer les priorités concurrentes que sont le maintien des niveaux de service et la limitation des augmentations des taux d'imposition
- Maintenir une infrastructure vieillissante
- L'imprévisibilité des financements provinciaux et fédéraux
- Pressions inflationnistes tout en restant compétitifs
- Pressions économiques globales

Comme indiqué ci-dessus, une municipalité est tenue d'équilibrer son budget chaque année. Cette première ébauche du budget est une de travail et, en tant que tel, n'est pas équilibré. Elle est présentée au conseil pour discuter des options et des possibilités en termes d'augmentation des recettes et de gestion des dépenses.

## FACTEURS INFLUENÇANT LE BUDGET 2024

### **INFLATION**

En 2023, l'inflation est restée élevée. Tout comme ses habitants, la municipalité a également été touchée par l'inflation au cours de l'année écoulée. Cependant, de nombreux coûts ont connu des augmentations bien supérieures à l'inflation. Ces augmentations sont indépendantes de notre volonté et nombre d'entre elles n'auraient pas pu être prévues. Les augmentations soutenues ont un impact sur le budget 2024 dans la mesure où l'augmentation des dépenses d'une année sur l'autre est plus élevée que celle des recettes, ce qui rend plus difficile le maintien des niveaux de service actuels.

The goals, priorities and issues faced in the development of the budget included:

- Improving the transmission of information by making it clearer and easier to understand
- Managing the competing priorities of maintaining service levels and keeping tax rate increases low
- Keeping up with aging infrastructure
- The unpredictability of provincial and federal funding
- Inflationary pressures while remaining competitive
- Overall economic pressures

As mentioned above, a municipality is required to balance its budget every year. This first draft of the budget is a working draft and, as such, is not balanced. It is presented to council to discuss options and possibilities in terms of revenue increases and expense management.

## FACTORS AFFECTING THE 2024 BUDGET

### **INFLATION**

In 2023, inflation remained high. Much like its residents, the municipality was also impacted by inflation in the last year. While some expenses remained within a reasonable range, several saw increases that were well above inflation. These increases are outside of our control, many could not have been predicted and they continue to impact the 2024 budget. Further to this is the fact that the year over year increase of expenses is higher than the year of revenues making it more difficult to maintain current service levels.

## **CROISSANCE**

La Nation connaît une croissance démographique qui s'accompagne d'une augmentation de la demande de services. Ces services ne sont possibles que s'ils sont financés.

## **VARIANCES- OPÉRATIONS**

Les points saillants des items ayant vu des variances significatives depuis 2022 sont:

### **REVENUS**

Les impôts fonciers ont augmenté de 172 617 \$. Cette augmentation est due à des réévaluations en raison d'améliorations apportées aux propriétés existantes et à la croissance. MPAC ne prévoit pas une réévaluation globale des propriétés en 2024.

### **DÉPENSES**

Dans l'ensemble, les dépenses sont comparables à celles de l'année précédente, compte tenu d'une augmentation annuelle. Pour certaines dépenses, cependant, l'augmentation est plus importante et hors de notre contrôle. Le coût global des activités a augmenté pour la municipalité. Certains postes méritent d'être soulignés:

- Les salaires et les avantages sociaux continuent d'augmenter. Pour rester compétitive et attirer du personnel de qualité, la municipalité doit rester compétitive par rapport aux municipalités environnantes et le marché local. Si l'on ajoute à cela la pression exercée par l'augmentation continue du salaire minimum, qui oblige les autres salaires à augmenter proportionnellement, il en résulte une augmentation significative du coût de la main d'oeuvre.
- La Nation exploite une flotte de 68 véhicules, allant des camionnettes aux chasse-neige en passant par les camions de secours incendie. Ces véhicules doivent être maintenus en bon état et être fonctionnels pour pouvoir fournir des services à la communauté. Le coût de l'entretien de

## **GROWTH**

The Nation is seeing growth in population and with growth comes more demand for services. These services are only possible with funding.

## **VARIANCES- OPERATIONS**

Some highlights to items having seen significant variances since 2022 are:

### **REVENUES**

Property taxes increased by \$172,617. This is due to reassessments due to improvements made to existing properties and growth. No province-wide reassessment is planned by MPAC for 2024.

### **EXPENSES**

Overall, expenses are, for the most part, comparable to prior year, factoring in an annual increase. For some expenses, however, the increase is more significant and out of our control. The overall cost to do business has risen for the municipality. Some areas worth highlighting are:

- Salaries and benefits continue to increase. To remain competitive and attract quality staff, the municipality must remain competitive with regards to surrounding municipalities and the local labour market. Add to this pressure from continued increases in minimum wage which forces other wages to increase proportionately, it results in a significant increase in the cost of labour.
- The Nation operates a fleet of 68 vehicles from pick up trucks to snowplows to fire rescue trucks. These must be kept in good working order to deliver services to the community. The cost of maintenance has gone up significantly in recent years and this, combined with the

considérablement augmenté ces dernières années, ce qui, combiné à l'augmentation constante du prix de l'essence et du diesel, se répercute sur les coûts d'exploitation.

- Les services publics ont connu une augmentation continue en 2023 (11 % par rapport à 2021) et cette tendance se poursuivra probablement en 2024. Avec plusieurs bâtiments et installations qui nécessitent du chauffage et de la climatisation, ainsi que l'éclairage et le fonctionnement des machines, cette augmentation des coûts a un impact négatif sur le budget.
- Les services sous-traités tels que la tonte du gazon, le déneigement et la collecte des déchets, pour n'en citer que quelques-uns, ont augmenté de manière exponentielle depuis 2021. Le coût de la main-d'œuvre et l'augmentation soutenue du prix de l'essence n'entraîneront sûrement pas des baisses dans l'année à venir.
- Sur le marché général, les matériaux de construction ont augmenté au-delà du taux d'inflation. En outre, plusieurs matériaux de construction nécessaires aux améliorations municipales (par exemple, les ponceaux, l'asphalte et le sel) ont augmenté bien au-delà du taux d'inflation (10 à 30 %) et sont restés élevés. Il est prévu que les coûts de construction devraient donc rester élevés en 2024.
- Les coûts d'assurance ont augmenté de plus de 10 % au cours des deux dernières années et cette tendance devrait se poursuivre en 2024.
- Dans le passé, les licences de logiciels étaient achetées et exploitées sur des serveurs sur site. De plus en plus, nous constatons une évolution vers l'hébergement et le support « cloud », ce qui transforme un élément de capital en un élément d'opérations. Au lieu d'acheter la licence tous les 5 à 7 ans, nous devons plutôt payer des frais annuels. Avec l'augmentation du nombre de logiciels et d'applications nécessaires pour faire opérer et fournir des services, ces frais commencent à être significatifs. Il convient de noter que l'utilisation de ces logiciels et applications a permis de réaliser des gains d'efficacité et des économies.

steady increase in gas and diesel, is impacting operating costs.

- Utilities have seen a continued increase in 2023 (11% over 2021) and this will likely continue into 2024. With several buildings and facilities that require heating and cooling as well as lighting and machine operations, this rise in costs negatively affects the budget.
- Subcontracted services such as grass cutting, snow removal and waste collection, to name a few, have increased exponentially since 2021. The cost of labour and the sustained increase in gas prices will likely not result in decreases in coming years.
- In the general market, construction materials have increased above CPI. Further to this, several construction materials required for municipal improvements (for example, culverts, asphalt, and salt) have increased well above CPI (10 - 30%) and have remained high. Construction costs are thus expected to continue to remain high into 2024.
- Insurance costs have seen increases of more than 10% for the last two years and this trend is expected to continue for 2024.
- In the past software licences were purchased on operated on on-premise servers. More and more we are seeing a shift toward cloud hosting and support which turns a capital item to an operating item. Instead of purchasing the licence every 5-7 years, we must be an annual fee. With an increased amount of software and applications required to do business and deliver services, these fees are beginning to be significant. It is worth noting that the increased use of software and applications has resulted in efficiencies and cost-savings.

## **FRIAS ET CHARGES**

Le budget 2024 propose des changements aux taux et charges suivants ainsi que l'introduction d'une nouvelle charge. Les détails se trouvent ci-dessous.

Collecte d'ordures - Nous avons préparé un rapport proposant des modifications de la charge pour la collecte des ordures ménagères. Cette modification tient compte des changements apportés à la collecte des déchets ainsi que de l'augmentation des prix de nos fournisseurs.

Taux eau et égouts - Un rapport spécifique a été préparé, proposant une modification du système de paliers actuellement en place afin de mieux répondre aux pressions environnementales actuelles et d'offrir aux résidents la possibilité de mieux gérer leurs coûts en termes d'utilisation de l'eau. L'augmentation des tarifs tient compte de l'inflation et des pressions sur les infrastructures auxquelles est confronté ce service, ce qui permet de maintenir l'excellence du service.

Charge pour les incendies - Compte tenu des changements apportés au service des incendies en 2023, une nouvelle charge est proposée pour aider à financer les dépenses actuelles et futures de ce service.

## **HAUSSE DES IMPÔTS FONCIERS**

En 2023, les taxes ont été augmentées de 2,95 %. Aucun taux d'imposition n'est proposé dans ce premier projet de budget. Toutefois, un tableau montrant l'impact d'une augmentation de 1 % par tranche de 100 000 \$ d'évaluation est présenté. De plus, une augmentation des taxes de 1 % représente 137 753 \$ de revenus. La direction attend du conseil des directives quant à l'augmentation du taux d'imposition pour 2024.

## **PROJETS EN CAPITAL**

Une liste de projets capitaux est présentée au conseil pour examen et discussion. Des modifications doivent être apportées pour

## **FEES, LEVIES AND CHARGES**

The 2024 budget proposes changes to the following rate and fees as well as the introduction of a levy. Details are found below.

Garbage collection fee - Finance has prepared a report proposing changes to the garbage collection fee. This change is considered the changes made with regards to waste collection as well as factor in the price increase of our suppliers.

Water & sewer rates – A specific report was prepared proposing a change to the tier system currently in place to better meet current environmental pressures as well as provide residents the opportunity to manage their costs in terms of water usage. The increase in the rates is to consider the inflationary and infrastructure pressures faced by this department thus allowing continued service excellence.

Fire levy - With the changes made in the Fire department during 2023, a new Fire Levy is proposed to help fund current and future expenses for this specific department.

## **TAX RATE INCREASE**

In 2023, taxes were increased by 2.95%. No tax rate is proposed in this first draft of the budget. However, a table showing the impact of a 1% increase per \$100,000 of assessment is presented. Also, a 1% tax increase represents \$137,753 in revenues. Management is looking to council for direction as to the 2024 tax rate increase.

## **CAPITAL PROJECTS**

A list of capital projects is presented for council's consideration and discussion. Modifications must be made to arrive at a realistic

parvenir à un montant de dépenses réaliste.

## DEBT AND THE ARL

Comme indiqué dans le rapport F-19-2023, il convient de garder à l'esprit le PRA. Les taux d'intérêt étant encore élevés au moment de la préparation du budget et notre PRA devenant limité en raison de trois emprunts importants contractés en 2023, le recours à la dette doit être très stratégique et utilisé avec prudence.

## CONCLUSION

Lors de l'élaboration de la première ébauche du budget, une attention particulière a été accordée à la continuité d'un excellent service tout en gérant les coûts. Bien que l'on s'attende à une croissance, les estimations sont restées prudentes afin d'assurer un minimum de couverture. Enfin, la direction sollicite l'avis du conseil pour les rapports présentés, la hausse du taux d'imposition et les priorités pour les projets en capital.

spending amount.

## DEBT AND THE ARL

As presented in report F-19-2023, the ARL must be kept in mind. With interest rates still high at the time of budget preparation as well as our ARL becoming limited due to three large loans taken on in 2023, the use of debt must be very strategic and used with caution.

## CONCLUSION

In developing the first draft of the budget, careful consideration was given to providing a continued excellent service while managing costs. Although growth is expected, estimates were however kept conservative to ensure a minimum is covered. Finally, management is seeking council's direction for the tax rate increase and priorities for capital projects.

# PROJETS EN CPAITAL

Le budget du capital couvre les immobilisations corporelles, des grandes infrastructures aux plus petits actifs et autres projets à long terme. Le budget capital est le plan de la municipalité pour l'achat, la construction, l'entretien, la réparation et le remplacement des immobilisations et de l'infrastructure.

Les projets proposés pour 2024 sont présentés dans le tableau suivant pour examen et délibération du Conseil. Les décisions prises sont essentielles à la viabilité à long terme de la municipalité. Le budget 2024 reflète les plans stratégiques, les besoins en capitaux conformément au plan de gestion des actifs et les besoins de la communauté.

Le budget d'opérations est étroitement lié aux immobilisations, car des fonds seront nécessaires pour assurer les dépenses quotidiennes associées aux immobilisations.

Les principales sources de financement des immobilisations sont : les fonds de réserve, les réserves, les subventions, les prêts, les redevances d'aménagement et les contributions de la collectivité. Les projets peuvent être financés par une ou plusieurs sources.

La planification du budget capital est délicate. Les besoins en capitaux pour rester en phase avec le plan de gestion des actifs, les besoins et les demandes de la communauté, et les infrastructures nécessaires à la croissance doivent tous être mis en balance avec les fonds disponibles, ainsi qu'avec la planification à long terme de la municipalité.

# CAPITAL PROJECTS

The capital budget covers capital items from large infrastructure to smaller assets and other long-term projects. The capital budget is the municipality's plan to purchase, build, maintain, repair, and replace capital assets and infrastructure.

The projects proposed for 2024 are presented in the following table for Council consideration and deliberation. The decisions taken are critical to the long-term sustainability of the municipality. The 2024 budget reflects strategic plans, capital requirements as per the asset management plan and the needs of the community.

The operating budget is closely tied to capital assets because funds will be required to ensure day-to-day expenses associated with the assets are met.

The main sources of funding for capital assets are: reserve funds, reserves, grants, loans, development charges, and community contributions. Projects can be funded by one or several sources.

Planning the capital budget is tricky. Capital requirements to stay on track with the asset management plan, community needs and requests, and infrastructure required for growth must all be balanced out against available funding as well as consideration for long-term planning for the municipality.

# GESTION DE LA FLOTTE

La municipalité dispose d'une flotte de 68 véhicules. Il s'agit notamment de camionnettes, de SUV, de camions tandem, de niveleuses, de pelles mécaniques, de camions de pompiers, d'un camion Hydrovac et de bien d'autres encore.

Le tableau de la page suivante présente les besoins de la flotte pour les dix prochaines années.

Ce plan permet à la Nation de suivre les besoins en flotte par département par année en tenant compte des coûts d'entretien des véhicules, du kilométrage, de la durée de vie utile estimée, etc. Sur cette base, l'année de remplacement estimée est déterminée. Le coût de remplacement estimé est déterminé en extrapolant le coût de remplacement d'aujourd'hui aux années futures en utilisant un taux d'inflation estimé.

La somme des besoins annuels totaux permet de déterminer le montant qui doit être transféré des opérations à la réserve pour la flotte afin de couvrir le coût des besoins futurs de celle-ci.

# FLEET MANAGEMENT

The municipality has a fleet of 68 vehicles. These include pick up trucks, SUV, Tandem trucks, grader, backhoes, fire rescue trucks, a Hydrovac truck and many more.

The table on the following page presents the fleet requirements for the next 10 years.

This sheet allows The Nation to track fleet requirements by department per year by keeping track of vehicle maintenance costs, mileage, estimated useful life, etc. Based on this, estimated replacement year is determined. Estimated cost of replacement is determined by extrapolating today's cost of replacement to future years using an estimated inflation rate.

Summing total annual requirements helps determine how much should be transferred to the fleet management reserve from normal operations to cover the cost of future fleet needs.

# RÉSERVES, FONDS DE RÉSERVES & REVENUS REPORTÉS

## RÉSERVES

Une réserve est une affectation des revenus nets à la discrétion du Conseil, après provision de toutes les dépenses connues, dans le cadre d'une stratégie globale de financement de programmes ou de projets qui sont définis dans les budgets annuels et autorisés en vertu des dispositions de la *Loi sur les municipalités*.

Il ne fait référence à aucun actif spécifique, il est de nature générale.

Ils peuvent être créés pour couvrir des dépenses en capital ou d'opérations.

Les réserves ne nécessitent pas de séparation des fonds ou des actifs.

Les réserves font partie d'un fonds de revenus et ne produisent donc pas d'intérêts par elles-mêmes.

Il peut être créé dans un but prédéterminé et utilisé à cette fin, à la discrétion du Conseil.

La Nation dispose de plusieurs réserves. Celles-ci sont présentées dans le tableau suivant.

## FONDS DE RÉSERVE

Les fonds de réserve sont basés sur une exigence statutaire ou un passif défini payable à l'avenir. La base de la collecte et de l'utilisation des fonds est spécifique et les fonds ne peuvent être utilisés qu'à cette fin.

Tous les intérêts produits par les fonds de réserve doivent faire partie du fonds de réserve.

# RESERVES, RESERVE FUNDS & DEFERRED REVENUE

## RESERVES

A reserve is an allocation from net revenue at the discretion of Council, after the provision of all known expenditures, as part of an overall strategy for funding programs or projects that are set out in annual budgets and is authorized under the provisions set out in the *Municipal Act*.

It has no reference to any specific asset; it is general in nature.

They can be created to cover capital or operating expenses.

Reserves do not require segregation of money or assets.

Reserves are part of a revenue fund and therefore, do not earn interest on their own.

May be established for a predetermined purpose & applied for that purpose at the discretion of Council.

The Nation has several working reserves. These are presented in the table that follows.

## RESERVE FUNDS

Reserve funds are based on a statutory requirement or defined liability payable in the future. The basis for the collection and use of monies in the fund is specific and funds can only be used for that purpose.

All interest earnings derived from reserve funds must form part of the reserve fund.

Il existe deux types de fonds de réserve :

1. Fonds de réserve obligatoire
2. Fonds de réserve discrétionnaire

### **FONDS DE RÉSERVE OBLIGATOIRE**

Ce type de fonds est créé lorsqu'une loi provinciale exige que les recettes reçues à des fins spéciales soient séparées des recettes générales de la municipalité.

Les fonds ne doivent être utilisés qu'aux fins prévues par la loi.

Ils peuvent être de nature contractuelle ou statutaire.

Des exemples de fonds de réserve obligatoires à La Nation sont les frais de développement et le fonds de fermeture/post-fermeture des sites d'enfouissement.

### **FONDS DE RÉSERVE DISCRÉTIONNAIRE**

Un fonds de réserve discrétionnaire est créé en vertu de la loi sur les municipalités lorsque le conseil souhaite affecter des revenus au financement d'une dépense future pour laquelle il est autorisé à dépenser de l'argent, et mettre de côté une certaine partie des recettes d'une année afin que les fonds soient disponibles en cas de besoin.

Ils peuvent être créés pour couvrir des dépenses en capital ou d'opérations.

Un exemple de ce type de fonds de réserve est celui créé pour la glace artificielle de l'aréna.

### **REVENUS REPORTÉS**

Les revenus reportés représentent les sommes reçues à l'avance pour être dépensées ultérieurement. Ces recettes sont mises de côté dans un fonds de réserve obligatoire à des fins spécifiques en vertu d'une loi, d'un règlement ou d'un accord. Les redevances d'aménagement sont un exemple de revenus reportés.

There are two types of reserve funds:

1. Obligatory reserve funds
2. Discretionary reserve funds

### **OBLIGATORY RESERVE FUND**

This type of fund is created when a provincial statute requires that revenue received for special purposes be segregated from the general revenues of the municipality.

Monies are to be used only for the purpose prescribed for them by statute.

They can be contractual or statutory in nature.

Examples of obligatory reserve funds at the Nation are development charges and landfill closure/post-closure fund.

### **DISCRETIONARY RESERVE FUND**

A discretionary reserve fund is created under the *Municipal Act* when Council wants to earmark revenue to finance a future expenditure for which it has the authority to spend money, and to set aside a certain portion of any year's revenues so that the funds are available as required.

They can be created to cover capital or operating expenses.

An example of this type of reserve fund is the one created for the Artificial Ice for the Arena.

### **DEFERRED REVENUE**

Deferred revenue represents monies received in advance for later spending. These revenues are set aside in an obligatory reserve fund for a specific purpose by legislation, regulation, or agreement. Development charges are an example of a deferred revenue.

**Subject:** Budget Request for 2024

To whom it may concern,

I have been in discussions with Counsellor Danik Forges regarding the terrible and deteriorating road conditions of St-Alberts Route 700 West. This road re-paving has been on the table for discussion for over a decade and never makes the cut. With more young families and new homes being built on this road, it's due time some budget be allocated to this task instead of the bi-annual patchwork. This is a primary road feeding into the newly renovated Touchette bridge, receiving ample daily traffic. I know many residents of Route 700 West are anxious to have a safer road to push strollers and ride bicycles.

Thanks,  
Lyndsay Caton  
Resident of Route 700 West.

**Subject:** Demande pour le budget 2024

Bonjour,

Ceci est un courriel pour faire une demande pour le budget 2024.

La route 700 ouest de St-Albert est en piètre état depuis plusieurs années et ses réparations se font repousser à chaque année depuis un certain temps. Je crois que le conseil doit faire de ce projet de repavage une priorité pour 2024.

Merci à l'attention portée à ma demande.

Véronique

## RAPPORT DU SERVICE DES FINANCES

Numéro du rapport : F-20-2023

Sujet : Proposition des taux de collecte d'ordures 2024

Préparé par : Nadia Lockhart-Knebel, Trésorière

Révisé par : Josée Brizard, Directrice générale-Greffière

Date: le 16 octobre 2023

## INTRODUCTION:

### **CONTEXTE HISTORIQUE**

Le taux de collecte d'ordures avait été fixé à 180 \$ en 2016 pour les années futures qui serait jusqu'à la fin du contrat (Règlement 06-2016). Le contrat avec Mikes's Waste et GFL ont expiré en 2022 et ceux-ci ont été renouvelés jusqu'en 2025. Il va sans dire que le renouvellement est à la hausse et que le taux chargé pour la collecte d'ordures devrait changer en conséquence. De plus, la collecte du recyclage ne fait plus parti du frais chargé puisque c'est maintenant pris en charge par la province.

### **CONCEPT USAGER-PAYEUR**

Chapitre 391 de la *Loi de 2001 sur les municipalités, c.25, tel qu'amendé* stipule qu'une municipalité peut à fixer des droits ou des redevances pour les services fournis et l'utilisation de leurs biens. Les coûts inclus dans des droits ou des redevances peuvent comprendre les coûts qu'engage la municipalité en ce qui concerne l'administration, l'exécution et l'établissement, l'acquisition et le remplacement d'immobilisations. Dans le cas du département de l'environnement en particulier pour la collecte d'ordures, seules les propriétés ayant une collecte sont chargés, on a ici un cas d'usager-payeur. Le revenu provenant du taux chargé sert à subvenir aux besoins du département, que ce soit pour les opérations de tous les jours ou le capital présent et à venir et les obligations de fermeture et après-fermeture des sites d'enfouissement. En résumé :

Le taux pour la collecte d'ordures doit couvrir les dépenses des sites d'enfouissement fermés, des contrats de collecte et d'enfouissement ainsi que les coûts reliés à la collecte de grosses ordures. À ceci on doit ajouter un montant pour conduire en réserve à chaque année pour assurer des fonds pour les besoins futurs.

## TAUX PROPOSÉ

Le taux proposé pour 2024 est ses composantes sont détaillés ci-dessous :

<b>Composante</b>	<b>Coût</b>	<b># de ramassages*</b>	<b>Frais par ramassage</b>
Enfouissement	182 000 \$	5 176	35,16 \$
Collecte d'ordures	460 510 \$	5 176	88,97 \$
Collecte de grosse ordures	16 600 \$	5 176	3,21 \$
Dépenses sites fermés	64 500 \$	5 176	12,46 \$
Réserve	51 760 \$	5 176	10,00 \$
Total			149,80 \$

\*basé sur les collectes de 2023 + une croissance de 66 selon l'étude de frais de développement

Basé sur le calcul ci-dessus, il est suggéré de fixer le taux à 150 \$ pour 2024 et à 156 \$ pour 2025, soit une hausse de 4%. Le taux sera à revoir en 2026 alors qu'un nouveau contrat sera négocié.

## RECOMMANDATION

Que le conseil approuve les taux proposés pour la collecte d'ordures pour les années 2024 et 2025.

## RAPPORT DU SERVICE DES FINANCES

Numéro du rapport : F-22-2023

Sujet : Proposition de la charge pour le service d'incendies 2024

Préparé par : Nadia Lockhart-Knebel, Trésorière

Révisé par : Josée Brizard, Directrice générale-Greffière

Date: le 16 octobre 2023

## CONTEXTE

En 2023, La Nation a conclu une entente de gérance avec la Cité de Clarence-Rockland (CCR) pour la gestion de son service d'incendie. Cette entente fait en sorte que la gestion du département ainsi que ses actifs en capital seront faites par CCR.

Dans les dernières années, la province a établi des lignes directrices, des pratiques exemplaires et des règlements stricts concernant l'équipement et la formation des pompiers. Ces modifications, combinées à des augmentations de coûts soutenues depuis 2021 ainsi que l'évolution des besoins en capitaux au fil des ans, auront un impact sur les dépenses.

### **CONCEPT USAGER-PAYEUR**

Chapitre 391 de la *Loi de 2001 sur les municipalités, c.25, tel qu'amendé* stipule qu'une municipalité peut à fixer des droits ou des redevances pour les services fournis et l'utilisation de leurs biens. Les coûts inclus dans des droits ou des redevances peuvent comprendre les coûts qu'engage la municipalité en ce qui concerne l'administration, l'exécution et l'établissement, l'acquisition et le remplacement d'immobilisations.

Afin de mieux gérer les fonds propres à ce service, il est proposé d'instaurer une taxe spécifique au service d'incendie. Les excédents générés par cette taxe resteraient en réserve pour les dépenses propres à ce service.

## SCÉNARIOS & TAUX PROPOSÉS

### **HYPOTHÈSES POUR TOUS LES SCÉNARIOS**

L'augmentation annuelle des coûts est estimée à 3 %.

Pour tous les scénarios, le calcul est basé sur le nombre de propriétés. Pour ce qui a trait au service d'incendies, toutes les propriétés ont un besoin égal soit d'être protégé par le service en cas d'incendie. Certes, une plus grosse propriété pour avoir besoin de plus d'effectif mais en bout de ligne les plus petites propriétés ont plus d'appels que les grosses (en général). Donc, en tout et partout, le besoin est similaire et il est donc raisonnable de faire un calcul par propriété au lieu de le faire basé sur l'évaluation.

Pour tous les scénarios, la croissance est basée sur l'étude des redevances d'aménagement et est donc fixée à 66 propriétés par an.

Tous les scénarios supposent que les biens d'équipement d'un coût supérieur à 500 000 dollars environ sont financés par un prêt. Bien qu'il s'agisse d'une option, l'ARL étant de plus en plus limitée, il se peut que cette solution ne soit pas réalisable pour tous les projets. Pour les projets qui ne sont pas annulés ou retardés et qui ne peuvent pas être financés par un emprunt, une autre source de revenus sera nécessaire pour couvrir les coûts si la taxe n'est pas augmentée à cette fin.

Un rappel que ces projections sont en constante évolution et sont sujettes à être ajustés annuellement selon les nouvelles données disponibles. Enfin, les projections sont basées sur le plan d'investissement présenté à l'annexe 1. Toute modification des besoins en capital aura une incidence sur le taux présenté.

## SCÉNARIO 1

Historiquement, la base de taxe couvrait environ 4,75% des coûts d'opérations engendrés par le département. Cette moyenne a été utilisée afin de déterminer combien il resterait à couvrir par la charge à l'avenir. La balance des coûts d'opération et de capital seront couverts par la charge.

Ce scénario prévoit un petit solde de réserve pour les cinq prochaines années. Le solde de la réserve en 2028 serait entièrement utilisé pour financer le véhicule prévu pour 2029. Par conséquent, le solde de la réserve est minime et juste suffisant pour couvrir ce qui est actuellement prévu.

## SCÉNARIO 2

Ce scénario sous-entend que tous les coûts du département seront couverts par la charge.

Ce scénario, comme le scénario 1, prévoit un petit solde de réserve pour les cinq prochaines années. Le solde de la réserve en 2028 serait entièrement utilisé pour financer le véhicule prévu pour 2029. Par conséquent, le solde de la réserve est minime et juste suffisant pour couvrir ce qui est actuellement prévu.

Solde en réserve		\$67,853	\$384,142	\$14,096	\$69,700	\$291,014

**SCÉNARIO 3**

Ce scénario implique que toutes les recettes générées par le prélèvement sont destinées uniquement aux dépenses d'investissement (ainsi qu'au remboursement de la dette liée à l'investissement).

Le taux de ce scénario est inférieur à celui du premier scénario, car aucun coût de fonctionnement n'est inclus dans le prélèvement. L'augmentation du taux pour ce scénario devrait être plus élevée que pour les autres scénarios afin de garantir que le solde de la réserve soit suffisant pour couvrir les dépenses d'investissement futures.

## RÉSUMÉ

Un résumé des quatre scénarios se retrouve ci-dessous :

SCÉNARIO 1	<ul style="list-style-type: none"><li>• Une portion des coûts d'opération de la base de taxe, le reste ainsi que les coûts de capital couverts par la charge</li><li>• Taux 2024 proposé - 85 \$</li></ul>
SCÉNARIO 2	<ul style="list-style-type: none"><li>• Tous les coûts couverts par la charge</li><li>• Taux 2024 proposé - 245 \$</li></ul>
SCÉNARIO 3	<ul style="list-style-type: none"><li>• Coûts d'opérations des taxes, coûts du capital de la charge</li><li>• Taux 2024 proposé - 75 \$</li></ul>
SCÉNARIO 4	<ul style="list-style-type: none"><li>• Réquisition de Clarence-Rockland et coûts en capital de la charge</li><li>• Taux 2024 proposé - 139 \$</li></ul>

## CONCLUSION

Tous les scénarios présentent des avantages et des inconvénients. Le scénario 1 est recommandé pour quelques raisons :

- Les coûts de fonctionnement sont actuellement financés par les taxes. Le maintien de ce concept et du pourcentage permet d'assurer l'uniformité.
- Le fait de couvrir une partie des coûts par les taxes permet de réduire la charge.

## RECOMMANDATION

Il est recommandé que le conseil approuve une taxe sur les incendies de 85 \$ pour 2024.

Que le Conseil accepte de réexaminer la taxe sur les incendies lors du budget de 2025, à la lumière des informations obtenues au cours de l'année.

Julie,

The complete list submitted by committee – there is a request for additional outlets in park which I think should be included for their Limoges Community Day Activity  
We are estimating this at \$2000 but it might be lower.

**Subject:** Demande pour Budget 2024

Bonjour,

Veillez trouver ici-bas la proposition du sous-comité du parc du Centre communautaire de St-Albert en vue de la consultation pré-budgétaire 2024.

Nous espérons pouvoir nous présenter en délégation afin de vous présenter notre projet de vive voix.

Merci,

\*\*\*\*

### **CONSULTATION PRÉ-BUDGÉTAIRE 2024 *Parc Jean-Maurice Lavergne, St-Albert ON***

Le sous-comité pour le parc du Centre communautaire de St-Albert est chapeauté par l'organisation du Groupe communautaire St-Albert. Il est formé de citoyens du village qui tiennent à ce que le parc réponde aux besoins de la communauté. Sa mission vise à améliorer les structures actuelles et proposer de nouveaux projets afin que les résidents de tous âges puissent profiter pleinement de leur parc au village.

Avec l'appui de la Municipalité de la Nation, les dons des organismes (Corde à Linge, Groupe communautaire St-Albert, Club Optimiste) et des entreprises locales, le sous-comité souhaite réaliser son plan d'action sur trois (3) phases. En premier lieu, il a été décidé de remplacer les bandes de la patinoire, qui ont une trentaine d'années et qui sont dans un état lamentable.

Selon les statistiques du Rapport d'utilisation 2023, le Parc Jean-Maurice Lavergne est l'un des plus achalandés, avec environ un tiers de toutes les activités sportives des parcs de la Municipalité de la Nation.

La patinoire est très populaire l'hiver pour le patin libre et le hockey. Les gens des alentours choisissent de venir patiner à St-Albert pour plusieurs raisons: le vestiaire intérieur avec toilette, la qualité de la glace et les dimensions professionnelles de la patinoire. Depuis plusieurs années, ce sont des citoyens dévoués qui s'occupent avec expertise de l'entretien tout au long de l'hiver. L'ajout d'une surfaceuse et d'un système d'arrosage en 2020, en partenariat avec le Groupe communautaire St-Albert et la Municipalité, est venu faciliter la tâche et améliorer la qualité de la glace.

Au-delà de la saison hivernale, l'espace est aussi utilisé tout au long de l'année avec le pickleball, le basketball et la ligue de hockey balle. Par ailleurs, le développement de deux nouveaux projets domiciliaires au village et la hausse du nombre d'élèves à l'école ne fera qu'augmenter l'utilisation de la patinoire.

Les bandes en bois actuelles sont dans un état déplorable. Les personnes ressources locales recommandent de les remplacer avec des bandes en aluminium. Voici les devis obtenus auprès de la compagnie canadienne X Hockey Products:

	<b>Option 1</b>	<b>Option 2</b>
<b>Matériel :</b>	Aluminium avec clôture en grillage autour du périmètre entier	Plastique/résine avec clôture en grillage autour du périmètre entier
<b>Prix:</b>	168 000 \$	128 000 \$
<b>Durée de vie annoncée par le fabricant :</b>	15 ans	15 ans

À la suite des discussions avec les organismes communautaires de St-Albert, il est possible d'envisager au moins 40 000\$ en appui financier. Avec le 150e anniversaire du village en 2024, plusieurs levées de fonds pourront être faites tout au long de l'année. De plus, il est important de considérer le renouvellement des publicités payantes devant la patinoire et l'appui des entreprises locales comme option de financement. L'objectif est de remplacer les bandes pour la saison 2024-25.

Par ailleurs, il est à noter qu'aucune autre aide financière est demandée pour le village ou le financement du 150e de St-Albert.

Enfin, dans le but de réaliser ce projet, nous souhaitons vous rencontrer en délégation lors des discussions pré-budgétaires.

Au plaisir de collaborer avec vous,

Le sous-comité pour le parc du Centre communautaire de St-Albert

Bonjour Julie

Demande pour parc Gagnon – nous avons faites des demandes aux compagnies pour des prix mais n'avons pas de réponse encore.

J'estime environ \$10K-\$15K pour le projet – prix de glissade, installation, surface protective (wood chips)

Hi Julie,

I do not have an official request from them as it was included in the budget as a continuation of their project:

Budget request 2024  
Pump track \$70K to construct it,  
plans were to be done in 2023 with \$34K

That is the last request that I know about and received from Josée. .
